CONSTRUCTION

Frame: Constructed from high quality, pure aluminum alloy, frames are coated in our Marine Primer and finished in an architectural-grade powder coat, creating a rich, dimensional color.

Marine Primer: A proprietary spray epoxy basecoat seals out oxygen and prevents corrosion.

Corian: Defined by superior durability and low maintenance, Corian is a solid, non-porous surface with outstanding UV performance. This impermeable tabletop prevents the growth of mold and mildew while its integral color promotes high abrasion resistance and easy cleaning.

Pietra: Marrying the look of Italian marble with the endurance of dense, engineered stone, Pietra boasts exceptional UV and scratch resistance, low porosity, and superior colorfastness.

Aluminum: Sourced from high quality, pure aluminum alloy, aluminum tops are protected by our Marine Primer and finished with an architectural-grade powder coat. Available in solid and perforated patterns.

Tempered Glass: Our tempered glass is four times stronger than traditional glass and can withstand drastic changes in temperature as well as prolonged exposure to direct sunlight.
