The floral design of the Lirio Table brings whimsical energy to outdoor lounges across residential and commercial spaces. Lirio, Spanish for “lily,” is a charming side table that echoes the organic shape of water lilies adrift in serene tropical waters.

A true testament to the harmony of form and function, Lirio may be specified as an independent pull up table or layered in pairs. This powder-coated aluminum table is offered in two heights for optimal versatility and easy nesting, making it ideal for flexible outdoor spaces.

Whether nestled beside a sun lounger or punctuating the ends of outdoor sectionals, Lirio will propel any al fresco lounge group into full bloom.

The distinctive “lily pad” cutout serves as a handle for smooth mobility while also allowing the tables to be neatly stacked and stored.
