# SUN SEEKERS

---

Reminiscent of the plummy palm fronds and wild ferns that thrive in warm climates, this elegant chaise lounge exemplifies the perfect balance between visual lightness and structural resilience.

Luma's airy sling appears to gracefully float above its streamlined four-post aluminum frame, the ultra-sleek silhouette pronounced by thoughtful end cap and edge details. This signature chaise lounge delivers exceptional beauty and poise to any poolscape, rooftop, or beach club.

## Feather-Light Look. Solid Construction.

This signature chaise lounge is pronounced by the subtle transparency of the sling's mesh.

Luma stacks up to 8 high, and has an optional cushion available in a generous selection of outdoor performance fabrics.
